

How to apply for your \$100 incentive:

- 1** Your Smart Thermostat must control your primary heating source. (Natural gas, propane or oil. Electric heating is not eligible.)
- 2** The residence that is linked to your Smart Thermostat must be located within the Enbridge Gas Program Delivery Area.
- 3** Your residence must be a single family home (detached, semi-detached, and townhouse homes only).
- 4** You must have an active Nest, ecobee, or Honeywell account linked to your Smart Thermostat.
- 5** You must have a Wi-Fi connection at your residence sufficient to communicate that your Smart Thermostat has been successfully installed, activated and paired to Nest, ecobee, or Honeywell's services.
- 6** You must activate your Smart Thermostat and submit an online application form for the incentive using a Redemption Tool on or before December 31, 2017. Learn more and apply today at **SmartThermostats.ca**

This Program is delivered by Enbridge Gas Distribution in partnership with the Government of Ontario.

*Participants who reside within the Enbridge Gas Program Delivery Area (see knowyourenergyscore.ca for details) and who purchase and install a Smart Thermostat (as defined below) before December 31, 2017 are eligible to receive a \$100 incentive (the "incentive"). As set out in further detail below, if you are an Enbridge Gas customer, the incentive will be paid by way of a credit on your Enbridge Gas natural gas account. If you are not an Enbridge Gas customer, the incentive will be paid by way of cheque. When you purchase and install a Smart Thermostat after April 15, 2016 for each of Nest and ecobee, and October 21, 2016 for Honeywell, and on or before December 31, 2017, if you have a central air conditioner and/or forced air electric furnace and meet the eligibility requirements set out below, your LDC or the IESO may contribute \$50 toward the \$100 incentive (note that your LDC bill will not be affected by this Program). For certainty, the total maximum incentive available to you under the Program is \$100. Nest, ecobee and Honeywell each provide an online incentive application (a "Redemption Tool") to facilitate your participation in the Program. Nest's Redemption Tool may be found at: nest.com/enbridge, ecobee's Redemption Tool may be found at <http://bit.ly/2aDstIX>, and Honeywell's Redemption Tool may be found at <http://bit.ly/2dDBumy>. **Qualifying Smart Thermostat means the Nest Learning Thermostat (Model#: T3007E1) or the ecobee3 Wi-Fi Smart Thermostat (Model #: EB-STATE3c-02) or the Honeywell Lyric Thermostat (Model #: Retail: RCH9310WF5011/U Trade: TH8732WFH5010/U). Smart Thermostats Program

Conserving Energy at Home

Maximize your home comfort and energy savings.

With our Smart Thermostats Program, you can save on the purchase of a qualified smart thermostat and lower your energy bills.

Learn more and apply today at **SmartThermostats.ca**

Discover how comfortable it is to save automatically.

One of the easiest ways to save on your energy costs is by installing a Smart Thermostat. It uses sensors and Wi-Fi technology to maximize your home comfort and energy savings. That's why Enbridge Gas is proud to offer the Smart Thermostats Program. Participants who reside within the Enbridge Gas Program Delivery Area and who purchase and install a qualifying Smart Thermostat** before December 31, 2017 are eligible to receive a \$100 incentive. If you are an Enbridge Gas customer, the incentive will be paid as a bill credit on your Enbridge Gas account. If you are not an Enbridge Gas customer, the incentive will be paid in the form of a cheque.

Get smart technology that adapts to you.

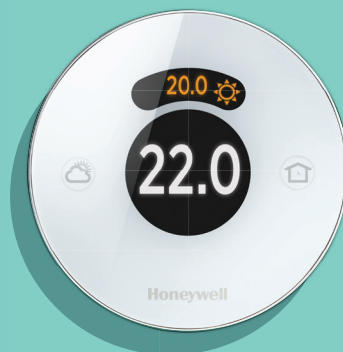

Smart Thermostats “adapt” to you by learning your schedule and preferences, automatically delivering comfort when you're there and savings when you're not. They also have handy features like automatic energy saving adjustments and maintenance alerts – such as when to change your furnace filter. Plus, thanks to Wi-Fi technology, you can control the temperature from just about anywhere – on your phone, tablet, laptop or desktop.
